Quick, convenient and safe

The ABUS Touch™ 57/50 fingerprint padlock now has a smaller brother, the ABUS Touch™ 54/45. Enjoy the same convenience of the ABUS Touch™ with a smaller shackle dia (6.5mm). Just the thing for locking personal items that have a smaller locking diameter - Personal lockers, toolboxes, cabinets or letterboxes.

- CR2 battery included
- Encrypted memory
- Double ball locking for higher security
- Coated Nano Protect™ shackle * Coated body
- Automatic opening by spring-loaded shackle
- Suitable for indoor or outdoor use (IP66 & IP68)
- Two admins and up to 20 users can be registered
- Efficient energy usage gives up to 10,000 openings

2022 JOINT WINNERS NIC SMITH & AIDEN WEBB

EST. 2012

Congratulations to our ABYL winners!

We had a brilliant response from young locksmiths across the country for our 2022 ABYL Award. After a final round of judging we selected joint winners Nic Smith from Rockhampton Key & Lock (QLD) and Aiden Webb from Matrix Security (TAS) to be crowned Australia's Best Young Locksmiths 2022. Both Nic and Aiden, with the addition of 2021 winner,

Jared Middleton, were flown to Melbourne for a tour of several industry specialist sites while enjoying the city with a couple nights of accommodation. All the guys were presented with the ABYL trophy and prize packs by LSC CEO, Mark Johnson.

NIC SMITH

JARED, AIDEN & NIC

AIDEN WEBB

We are grateful to ASSA ABLOY, Sutton Tools and KJ Ross for their continued support. Each of these sponsors has supported the ABYL competition since its inception in 2012. SALTO jumped onboard as

a new sponsor in 2022 and has been a great addition. The support that our sponsors provide this award lets us run a great competition and continue to advocate for young locksmiths across the country.

TOYOTA PROXIMITY SOLUTION

**ADVANCED
DIAGNOSTICS**

This major new release from Advanced Diagnostics now gives SMART Pro users the ability to program keys to select Toyota and Lexus proximity vehicles when all keys lost. The solution also makes possible key programming to vehicles which would normally require dealer security (TIS) access, such as the very popular Corolla and RAV4 2018+. Component removal and or plugging into ECUs is not required. The key programming process is safe and very user friendly with all programming carried out via the OBD connector. The solution consists of 2 parts as listed.

ADA Smart Pro Emulator for Toyota DST when All Keys Lost

- Used for when all proximity keys are lost
- Connects to the SMART Pro by way of USB
- Key data read from the vehicle by the SMART Pro is stored in the emulator
- The emulator becomes a master key
- Using the emulator the operator can program new proximity fobs to the vehicle

SD755650AD

ADA SMART Pro Software Toyota 2022 ADS2328

New software programs proximity keys to select Toyota vehicles.

- When all proximity keys are lost the use of the ADC2015 emulator is required
- If there is an existing proximity key the software will program spare keys
- Bypasses the requirement for dealer security access (TIS) where applicable
- Token usage differs depending on vehicle specifics (refer CarLab, MYKEYSPRO or updated Smart pro)
- Category A software which can be purchased outright if required

SD756605AD

For additional information inclusive of applications lists please refer to MYKEYSPRO, CARLAB or the menu in an up-to-date Smart Pro device. **At the time of release the ADC2015 covers select DST128 proximity fobs only, with further coverage to follow**. The functionality of the emulator extends to other manufacturers such as late model Subaru utilising 'H' bladed keys. But these are not yet present in our region.

NEW KEYS FROM SILCA

NEW

Keys are the backbone of any good locksmith or key cutting outlet. Ensuring you have the right range of keys and are ready to help those customers who've tried elsewhere can lock in customer loyalty for years to come.

RC29 and RC30

to suit half-moon dimple style cylinders fitted to toolboxes, vehicle accessory locks, trailers and other 4WD equipment, and distributed by "MW Toolbox" in Melbourne. Cut on a dimple machine like Triax or Futura Pro

BOL1

to suit Borg Locks emergency override. Cut on a dimple machine like Triax or Futura Pro

RC26R and RC27

to suit Cyber Lock (CL) cam locks and mail box cylinder locks. These locks are becoming quite popular, and replacements are difficult to find. Cut on a dimple machine like Triax or Futura Pro

HIT1R, KOL1R, KOM2, VLV1, DTZ1R

a group of pre-cut keys to suit diggers, tractors, earthmoving equipment from Hitachi, Kobelco, Komatsu, Volvo and Deutz.

MAZ26R

to suit new Mazda vehicle proximity keys, this is the emergency blade with a new profile. Cut on a regular inline machine like Unocode or Futura.

MEET STU.

LSC'S SECURITY TRAINING UNIT

NEW SHOWBUS

STU will be visiting a branch or state near you soon!

In 2009 LSC launched the first "Showbus", taking our machinery and products to customers far and wide.

Tom Stokes, LSC's Operations Manager reflects: "we'd thought about how to keep up the coverage and support to the regional customers, and we'd done some roadshows, especially around Queensland. But shipping everything was a chore, and we wanted something easier to deploy".

Other industries offered a clue, with automotive providers offering travelling showrooms and experience centres.

Tom says "we bought ourselves the biggest van you could legally drive on a regular license, and it was BIG (probably too big in retrospect)". We had it professionally fitted out, the works. That van covered two full laps of Australia visiting FNQ, the far west of WA, Tasmania, the NT. Brad Coward and Tony Paterson camped in it on the way to customers in Broome. Only in WA.

It even had a stint over the ditch in New Zealand, visiting both islands. Richard Hoares, LSC's transponder specialist, had the job of driving it down the west coast of the South Island. He stopped to take some photographs, and some crazy birds descended on the van and chewed some rubber parts in the air-conditioner on the roof which didn't work ever again. Only in NZ.

2009 - THE LAUNCH

2013 - ELECTRONIC SECURITY

Now a new Showbus is born – STU. STU is the Security Training Unit, and after months of preparation it's ready to hit the road. STU has a full commercially racked interior, a 3000W true sine wave inverter and heavy-duty power management system, and is loaded with the latest LSC equipment.

Designed to be more flexible than before (and tad smaller), STU will be visiting a branch or state near you soon. Importantly – we will bring our products to YOU. We know visiting a branch isn't easy if you're outside a metropolitan area, and this will be a great way to experience and learn about our products. Your AM will be in touch with details.

2023- NEW (STU) SHOWBUS

AUSTRAL LOCKS KEEPING AUSTRALIAN HOMES SECURE

The Austral Elegance lockset includes a "Push2Go" one-way locking function that enables the lock to be "snib locked" from the outside by operation of "Push2Go".

The "Push2Go" cannot be operated to unlock the lock. Conventional hinged security screen door locks often feature two stage key locking – the first stage is privacy and the second stage is deadlocking. The all new Elegance Push2Go replaces the need for a key to engage privacy locking with a push button so you can "Push2Go".

The door can be unlocked from the inside with the turnsnib and unlocked from the outside with a key.

SELECTING THE RIGHT MOBILE ACCESS SUBSCRIPTION

UPDATE

HID MOBILE ACCESS CONTINUES TO EVOLVE

First launched in 2014 and redesigned in 2022, HID Mobile Access successfully merges security with convenience through the storage and use of secure identities on smartphones and wearables.

HID Mobile Access continues to evolve and innovate with the release of a new subscription type in their Mobile Access product. There are now two tiers of product subscription offering more choice for your access needs called Essentials and Enterprise. Additionally, end users now have the option of one or three year subscription terms.

Essentials 1 year Subscription Licence, Min quantity 20 users

MIDSUBT050

Add On Licences for Existing 1 Year Essentials Portals

MIDSUBT050ADD

Essential 3 Year Subscription Licence, Min quantity 20 users

MIDSUBT053

Add On Licences for Existing 3 Year Essentials Portal

MIDSUBT053ADD

Enterprise 1 year Subscription Licence, Min quantity 20 users

MIDSUBT100

Add On Licences for Existing 1 Year Enterprise Portals

MIDSUBT100ADD

Enterprise 3 Year Subscription Licence, Min quantity 20 users

MIDSUBT103

Add On Licences for Existing 3 Year Enterprise Portals

NEWS & EVENTS

LSC SA NEW HOME!

Hey South Australia. Did you know our LSC Adelaide Branch has now moved to the inner-west?

Located at 5 West Thebarton Road, Thebarton, our new & improved branch is just 15 minutes from its previous location. We've got loads of parking available; plus a better, more spacious showroom with a more convenient interior floorplan. As usual, we're open from Monday to Friday, 8am – 4-30pm. See you there!

SECURLock TECHNOLOGIES (VIC)

Congratulations to the lucky winners of our latest Dahua competition, SecurLock Technologies, Ballarat!

The SecurLock team take home a Limited Edition 2022 Socceroos World Cup Team-Signed Jersey to commemorate Australia's greatest ever World Cup result. Congratulations, and thank you to everyone who shopped Dahua with LSC during the World Cup!
