Credly

NEW CERTIFICATIONS

Let's Make It Official!

Introducing Credly Digital Badges

We're excited to announce that our TechEd training courses will soon come with digital badge certifications from globally-trusted certification provider Credly!

These digital badges will serve as a legitimised proof of your knowledge & skills in electronic security. They can be shown to prospective clients, customers or employers to verify your competency.

Digital badges can also be added to your work email signatures, on your digital resume, and can be shared on social media sites such as LinkedIn, Facebook, and Twitter.

This digital badge contains verified metadata that describes your qualifications and the process required to earn them, meaning that yourself and others can verify your knowledge in these fields.

We'll also be distributing legitimised certification badges to you if you've already completed one of our Electronic Security TechEd training courses in the past 18 months. So keep an eye on your inbox!

Show off Credly digital badge certifications on LinkedIn, Facebook or Twitter!

ESC601 Milesight CCTV Fundamentals | 4.5 Hours

This course is recommended to installers who want to install network video recorder systems, connect end user apps, and provide their customers with a good understanding of how to use the system.

ESI501 RISCO WiComm Pro Certification | Self-Paced Online

Learn how to program and configure the RISCO wireless WiComm Pro alarm system. Purchase of WiComm Pro training kit is required to complete this course

ESI502 RISCO LightSYS Plus Certification | 1 Day

This course includes both practical and theoretical components. Participants will:

- Install a take home LightSYS Plus kit
- Configure the system using the CS software
- Install BUS & wireless detectors

ESC801 Dahua Certification Level 1 | 5 Hours

Hands on course covering product range and configuration of Dahua CCTV & IP Video Intercoms. Connect your configured systems to the phone app. Complete your Dahua installs with confidence!

ESA401 CS Technologies | 5 Hours

This hands-on course will see you install and configure the EVO2 & EVO4 network Access Control system. Install and connect the Evolution software to the provided learning station. Advanced functionality is covered with OSDP reader connection, workstation setup and CCTV integration.

SECURE YOUR BUSINESS

Keep your data safe, and take advantage of the latest enhancements with Pm8 Updates.

With cyber-security an ongoing threat to businesses, keeping your business digitally secured is a critical consideration we urge you to make. Locksmiths and Security businesses hold valuable information in the form of your Master-keying data.

Utilise WH Software's ProMaster 8, which deploys the latest database technology with strong encryption to keep your clients' information locked up, and away from the eyes of evil actors.

Some new functionality enhancements that have just been released will also make your life easier:

Version 8.19601.0.0

Door sort - added an option in preferences to allow the door number to not be progressed when adding doors with keys.

Version 8.19402.0.0

Keying matrix - added ability to filter doors by area, by currently displayed keys, or doors, added keyboard shortcuts for filtering, and added a door and key display at the bottom of the keying matrix.

Version 8.19102.0.0

Enhanced Security - updates, registration, publishing and associated calls to use TLS 1.2

Version 8.19002.0.0

Faster Performance - improved the code calculation speed (coding tree and coding matrix) on popular design modules.

Version 8.19802.0.0

Support for Lockwood Twin T35 Profile keys when cutting on Unocode F-Series – added support for the U26/L26 clamp and special card which holds the asymmetrically profiled T35 keys.

THE ULTIMATE ELECTRONIC PADLOCK SOLUTION

SALTO Systems has introduced the SALTO Neoxx G3 electronic padlock, the most advanced and versatile locking system on the market, which is suitable for a wide range of access control applications. With exceptional attention to detail, this electronic padlock offers unbeatable durability and reliability, ensuring that property and valuables are kept safe and secure at all times.

HARDWARE

The SALTO Neoxx G3 padlock is made of hardened steel with a removable shackle model option, ensuring maximum durability. It is also IP66 - IP68 rated for water-resistance and IK08 impact-resistant, making it suitable for any kind of climatic environment, even those that are very extreme. The shackle is available in 8mm diameter and length options of 25mm, 30mm, 60mm, and 90mm. The padlock has been extensively tested, with up to 130,000 operations on a standard set of batteries (4 x LR1).

CONNECTIVITY

The SALTO Neoxx G3 integrates RFID, Bluetooth LE, and NFC technologies to provide the ultimate keyless experience and the most advanced electronic locking system available. In addition, the Neoxx G3 electronic padlock features SALTO SVN data-on-card and BLUEnet wireless network capable core technologies onboard. The padlock can read, receive, and write information via a smart card or real-time communications over the air (OTA). It is compatible with the SALTO Space, SALTO KS and Homelok platforms.

CREDENTIALS

The SALTO Neoxx G3 is fully compatible with a wide range of credentials, including card, wristband, fob, or phone (Apple and Android). Users on the SALTO KS system can even use Apple Wallet with an iPhone or Apple Watch.

MLAA EVENTS

SAVE THE DATE | MLAA CONFERENCE & TRADE EXHIBITION 27 & 28 OCTOBER 2023

The MLAA National Conference & Trade Expo is back for 2023, and we invite you to join us at the Pullman International in Cairns. This year's conference program includes a full trade expo, and the MLAA will offering a number of breakout sessions covering business essentials, skills training, mental health, marketing, and more.

There are several awards to be presented on the night, including announcing the winner of the prestigious 2023 John Andrew Apprentice of the Year competition, sponsored by LSC, Silca and ABUS. The theme for this year's event is Secure Your Foundation – Invest Now to Build a Stronger Future. This is the locksmith industry's premier event for 2023, and we encourage all locksmiths and security technicians to attend the event.

NEW ZEALAND MLAA MINI TRADE EXPO | MAY 19 & 20

The LSC NZ Team were delighted to exhibit at the MLAA Mini Trade Expo in late May at the Novotel in Ellerslie, Auckland. Our pop-up stand showcased the best products from our leading brands, and we successfully launched our full ecommerce website to our NZ customers.

The 2-day event drew in a big crowd as the last expo hosted in NZ was in 2018. The general feedback from visitors was positive and many that visited our stand got hands on with the new Silca Unocode F-Series machine or enjoyed a demonstration of our Milesight CCTV range. With many visitors asking to make this an annual event we might see you again in Auckland in 2024!

STU SHOWBUS ON THE ROAD IN NSW

LSC Account Managers Paul Robinson and Mitch Bartlett have been sharing driving duties as they hit the road in NSW to take STU to visit many of our customers from Sydney, the Northern Beaches, South Coast, Bathurst, Tamworth, Lithgow and Dubbo.

Onboard STU customers are getting hands-on with the Silca Unocode F900, Silca Futura Pro, Futura Auto and the Poker Pro, SMART Pro and the RW5. Next month it will continue to see more of Western Sydney and make its way to ACT. Speak to your LSC Account Manager if your business would like a visit from STU.

HAPPY CUSTOMERS

BORDER LOCKSMITHS (QLD)

Here we see Jack (L) and Jonathon (R) from Border Locksmiths & Electronic Security in the Gold Coast pictured with their new Silca Unocode F800.

FLEET LOCKSMITHS (VIC)

Vahid Karsaz from Fleet Locksmiths is giving us a big thumbs-up since he added the Futura Auto to his work van.
