

## New Key Programming Software compatible with HYUNDAI KIA\* ADS2331 - Code D756916AD

October 2023

**Advanced Diagnostics is pleased to announce a new software release to read the security PIN code for most of the latest models from Hyundai\* and Kia\*.**

### What does the software do?

ADS2331 PIN Code Reading software reads the PIN code directly via the OBD socket for many previously unsupported models. For models where PIN code reading is not supported via OBD, the software can read the PIN code from a working key via the Smart Aerial+ (ADC245) when connected to Smart Pro.

The accompanying application list and MYKEYS Pro show which models require a working key for PIN code reading.

### What else is needed?

An internet connection is required.

Smart Pro

Smart Aerial+  
(for certain applications)

### OFFER DETAILS

Cable	ADC2000
Software category	A
Smart Aerial+	Yes (for certain applications)
Other software required	ADS2196 or ADS2321 (depending on the application)
