

New Key Programming Software Fiat Chrysler Group* 2022 ADS2324 - Code D755951AD

February 2022

FIRST TO MARKET

Advanced Diagnostics is pleased to announce the release of a key programming solution for a selection of popular Jeep* and Fiat* models.

What does the software do?

The software programmes proximity keys for popular models like the Jeep Renegade*, Jeep Compass* and the Fiat 500X*. All keys and remotes will be erased before programming new ones. The software bypasses the security pincode and programs the remote and the transponder at the same time. No working key is required. The ADC2012 cable is necessary to complete the programming procedure.

Server Connection required

The AD2324 software requires an internet connection to access the programming calculation in the proprietary Advanced Diagnostic server.

What else is needed?

Smart Pro

Cable ADC2012
(Code D753920AD)

Silca Proximity key
SIP22P36 / SIP22P40
